

# gotilo

WebOccult's **Productized Vision** for Smarter, Safer Operations

# What is Gotilo?

Gotilo is a productized AI Vision suite from **WebOccult**, built to transform industrial operations with ready-to-deploy solutions. By combining advanced computer vision, industrial camera integration, and modular design, Gotilo empowers enterprises to improve safety, detect defects with precision, automate logistics, and deliver measurable ROI at scale.

## The Gotilo Suite

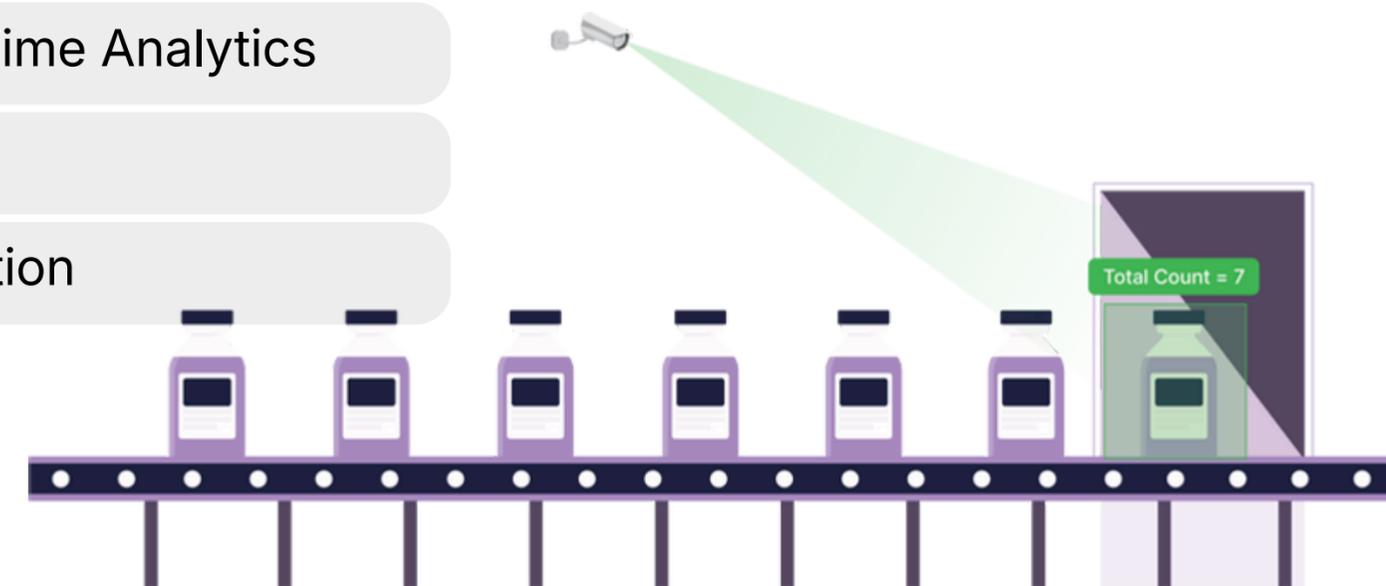

Together, they turn **vision into impact**

It expresses precision at scale. It transforms the act of inspection into an intelligent process of discovery, uncovering details that often go unseen, and setting a new standard of reliability and confidence in every product that leaves the line.

## Capabilities that Matter

- Multi-Class Object Counting
- Unique Person Counting
- Zone Occupancy Analytics
- Virtual Zone Intrusion
- Mobile Usage Detection
- PPE Compliance Verification
- Slip-Hazard Surface Detection
- Fall Detection
- Early Fire & Smoke Detection
- Unattended Object & Trip-Hazard Detection
- ANPR - Automatic Number Plate Recognition
- Parking Occupancy & Dwell-Time Analytics
- Vehicle Speed Estimation
- Vehicle Counting & Classification

## Unique Person Counting at an exhibition

### Event Log

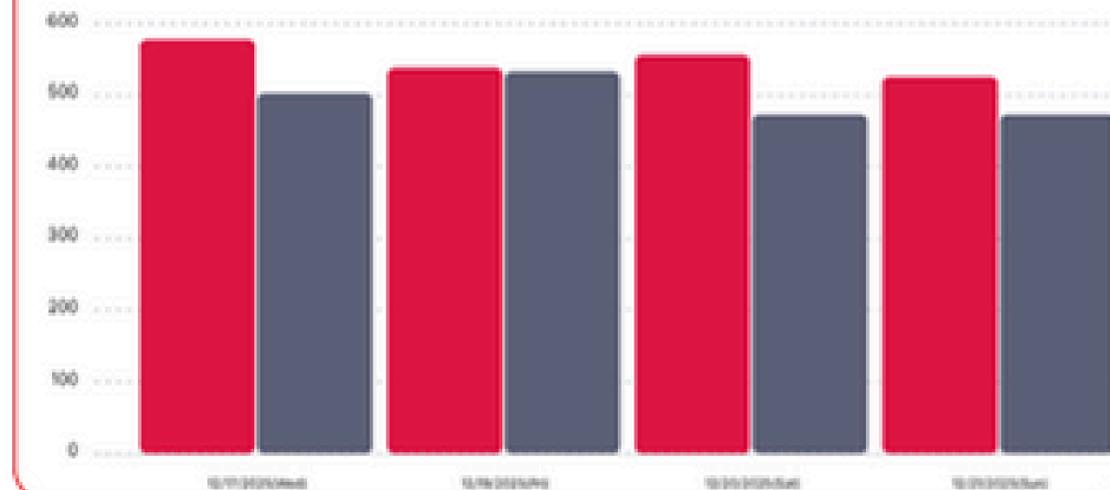

Total people count: 1203

Unique people count: 1120
